**FACT SHEETS
FOR FAMILIES**

CCHP's user-friendly educational resources are developed for child care providers, instructors, Child Care Health Consultants, Child Care Health Advocates and the families they serve.

The mission of the California Childcare Health Program is to improve the quality of child care by initiating and strengthening linkages between the health, safety and child care communities and the families they serve. CCHP is a community-based program of the University of California, San Francisco School of Nursing, Department of Family Health Care Nursing.

Health and Safety in the Child Care Setting: Prevention of Infectious Disease

This curriculum will help early care and education providers create healthy environments and teach healthy habits to the children in their programs. Covers the content of the Emergency Medical Services Authority 7-hour Child Care Preventive Health and Safety Training. 2nd ed. (2001). \$25

Health and Safety in the Child Care Setting: Prevention of Injuries

This curriculum will help early care and education providers understand how injuries happen, and how by planning ahead and taking simple precautions, most injuries can be avoided. Covers the content of the Emergency Medical Services Authority 7-hour Child Care Preventive Health and Safety Training. 2nd ed. (2001). \$15

Health and Safety in the Child Care Setting: Prevention of Infectious Disease and Injuries: Student Edition

This special student edition provides trainers with the complete set of handouts from *Health and Safety in the Child Care Setting: A Curriculum for the Training of Child Care Providers* for reproducing and distributing to students.

\$20 per CD Includes both English and Spanish on CD in PDF format only

Asthma Information Packet for Early Care and Education (ECE) Providers

This packet assists (ECE) providers in learning more about asthma and how to better care for children with asthma in their programs. The packet is comprised of a handbook, DVD and posters. \$10 per packet Available in English or Spanish

Promoting Children's Oral Health

This curriculum is for anyone working in the field of early care and education with an interest in promoting oral health and protecting Early Childhood Caries. \$15

California Training Institute Curriculum for Child Care Health Consultants (CCHCs)

This curriculum is designed to train health care professionals, including physicians, nurses and pediatric nurse practitioners, to become a Child Care Health Consultant. \$80 printed curriculum; \$20 per CD

California Training Institute Curriculum for Child Care Health Advocates

This curriculum is designed to train early care and education professionals to become Child Care Health Advocates.

\$80 printed curriculum (available in English and Spanish); \$30 Instructor's Guide

\$30 per CD (Includes Curriculum: English, Spanish; Instructor's Guide: English)

Child Care Health Connections Newsletter

Provides up-to-date child health and safety information for the early care and education community. The newsletter is published six times per year. \$25 Six issues per year

Checklists

Health & Safety: This 82 item observational tool is developed to assess the health and safety status of early care and education (ECE) programs and develop interventions to address the identified health and safety needs. **Policy:** Will help you to evaluate the written health and safety policies in ECE programs. \$10 Health and Safety Checklist; \$5 Policy Checklist
